

Premium Furring Strips

Premium Furring Strips are perfect for a wide range of uses ranging from carpentry, hobbies, shelving, and general finish work, creating a level surface for attaching wallboard and paneling, establishing an air space - perfect for masonry, insulation, and cedar shingle projects. Furring Strips are easy to glue, excellent for nailing, and have screw-holding properties. These Furring Strips are in the highest grading standards for strength and appearance. They also have straight grain and uniform texture with low shrinkage and are easy to work with both hand and machine tools.
