## 1x12-16' AbsoluteTrim by WoodTone

Our FinishReady™ engineered Western Red Cedar products are designed to highlight the natural beauty of WRC while providing superior product stability and durability in the prime lengths you need. Our made in North America cedar allows for multiple finishing opportunities to bring your design aesthetic to life.

What is FinishReady™?

This product was designed for multiple field finishing opportunities:

Leave product raw for a natural aging patina

Ideal for semi-transparent stain
(Suggested designer finish!)

Ready for any custom solid body coating

PROFILE		DIMENSIONS	UNIT SIZE
AbsoluteTrim™	**TRIM**	**1X12**	**132**

Features & Benefits:

Texture
Finished in Resawn or Rougher-headed textures

Lengths
16' & 20' prime lengths. Eliminate the need for random short lengths

20-Year Warranty
Against manufacturing defects – backed by over 45-years of trusted manufacturing capabilities

100% Select Knotty Grade
High-quality select knotty grade with more vertical grain than traditional solid cedar allowing for consistent small knot structure

Engineered & Kiln-dried
Engineered for maximum product stability (minimal splitting/checking/warping as compared to regular solid KD product)

Sustainable Supply
Produced from smaller trees that are 100% sustainable versus the equivalent sized non-engineered product
